This collection will consist of diverse forms of print and non-print media of sufficient scope and currency to support a high quality community college curriculum; to meet the information needs of NMC's students, faculty, and staff; and insofar as appropriate, to help meet the information needs of the community.

The Executive Director of Learning Resources and Technology, in conjunction with the appropriate faculty and staff, is responsible for the development and publication of any procedures or guidelines that may be necessary to administer this policy effectively.
