NMC NEXT

To: Dr. Nick Nissley, President

From: Jason Slade, Vice President of Strategic Initiatives

Date: December 9, 2024

Subject: Strategic Initiatives Update: December 16, 2024 Board of Trustees Meeting

Topic: Strategy 4 - Community Partnerships and Engagement

Strategy 4 - Community Partnerships and Engagement: Enhance collaborations that advance community engagement, economic and workforce development, and innovative opportunities for lifelong learning. (*Champion: Jason Slade*)

Summary:

This strategy is on track with 2 of the 4 objectives currently classified as "green." These objectives are focused on workforce and technical training and access to 4-year pathways. Upgraded to "yellow," Extended Educational Services (EES) continues to report significant financial performance improvements since the plan's inception. This progress can be attributed to improved departmental efficiencies, new and innovative offerings, stronger workforce partnerships, and regular revenue and expense analysis. Community partnership activities continue but this objective has shifted to align with the Foundation's strategic plan, allowing the college to maximize resources and streamline efforts. Based on this, it is classified "yellow" but has additional monitoring under the Foundation's purview. The CAAS survey will be executed in April/May to align results for Strategy 4 with the conclusion of this strategic plan.

Highlights and Successes:

- **Objective 1 (Community Partnerships)** PRMC released their first ever Community Report highlighting how NMC is building a vibrant, thriving community through education, innovation, and responsive programs. This publication has been very well received by the community.
- Objective 2 (Workforce Development) EES continues to grow contract training opportunities with industry partners and local employers. The relationship with Sara Lee Frozen Bakery (SLFB) has grown as SLFB expanded their training contract to include leadership training at other plants across the country. Additionally, EES is delivering leadership training for GT Plastics and welding training for Michigan Technological University as well as developing skill-specific training to support NMC's apprenticeship program, blending credit and noncredit learning.
- Objective 3 (Extended Educational Services) EES continues to improve financially. FY24 reduced the deficit to -\$200K, a dramatic improvement from -\$485K in FY21. But the results were not just financial, as EES was recognized at the Learning Resources Network (LERN) annual conference this fall with a "Best Ideas of 2025" award for developing and nurturing the connection between EES and the NMC Foundation which has resulted in 14% of EES learners donating over \$2.6 million dollars in charitable giving since 2020.
- Objective 3 (Extended Education Services) EES compiled their first annual report focusing on their successes since the inception of this strategic plan. Key takeaways highlighting EES' value to the college are:
 - Improved financial performance based on tier class modeling and pricing, restructured pay rates, and analysis of course performance
 - 12% of NMC students started in College for Kids providing an early connection to NMC

- Positioning EES as the preferred provider of workforce and professional development training in the region
- Increased revenue for academic programs through offering credit courses to the general public (\$75K last year)
- **Objective 4 (Access to 4-Year Education)** Efforts continue to be made to make the transition to 4-year institutions easier, including:
 - NMC Advising completed a "deep dive" into best practices for transfer website architecture and content, with a goal of creating an even more student-centric approach to providing online transfer information. This follows major revisions to transfer guides, "how to" transfer information, and a system for providing the most up-to-date transfer contact information for our 4-year partners. We continue to create more robust guides based on student feedback for our transfer resources page and work with 4-year universities to add transfer guides to our new page based on popular transfer programs and schools.
 - University Center partners and Advising created a robust Transfer Week this year with 11
 workshops/events for students to access transfer information and opportunities on main campus.
 These events surrounded our annual Transfer Fair and College Night, held in early October.
 Approximately 250 current NMC and area high school students attended the fairs this year.
 - O Advising has launched NMC's first Direct Connect guaranteed admission partnership with GVSU's Allied Health program and will bring Davenport on board offering over 10 program options in Spring 2025. They are working to market the program with current NMC students and build marketing and resource materials for prospective students. Faculty Advisors are also being trained on the program.
 - o In partnership with the Admissions team, Advising is revamping the annual Career Fair to become a *Career & Majors Fair* this year. Employers will sit side-by-side with faculty and staff from our academic majors to showcase how NMC academic pathways can lead to employment opportunities in our region. This year's fair, as in the past, aims to attract current NMC students and community members looking for careers, as well as prospective NMC students and those enrolled at NMC who are still deciding on their career path. The goal of these new changes is for a recruitment component to be included for NMC, while also expanding the Career Fair's prior offerings. The event will be held off-campus at the Park Place Hotel on March 6, 2025 from 1-6 pm.

Challenges and Opportunities:

- Continued alignment between Objective 1 (Community Partnerships) and the work of the NMC Foundation as the Foundation looks to engage donors and the community. Foundation staffing has decreased and roles have changed, resulting in Objective 1 being more closely aligned with the work in the Foundation's strategic plan.
- Work has begun on paving a clearer path which blends credit and noncredit offerings to potential students. This includes cross-listing classes on both the NMC and EES websites and investigating a "one stop shop" for all potential NMC students and community members. This work may roll into NMC's next strategic plan. EES and Admissions led a regional submission for a MiLEAP Sixty by 30 community partnership grant that would accelerate these efforts. Grant awards will be announced in late December or early January.
- Master Plan work related to the move of the UC partners to the Beckett Building has begun. We are currently assessing the space needs of each partner and determining the best layout to accommodate partner needs while supporting NMC's vision of increased vibrancy.
- The Davenport University/NMC ADN to BSN is struggling to attract a consistent cohort of students and marketing/outreach efforts are being reviewed.

Strategy 4 - Community Partnerships and Engagement

Started

Objective 1: Leverage and enhance existing partnerships, and identify new key partnerships, in order to increase NMC's overall job performance in responding to the "community's learning needs" by 2.5% (3.87 to 3.97) in Grand Traverse County by 2024 using the Community Attitude and Awareness Survey (CAAS).

Objective 2: The community believes providing skilled trades instruction is the highest priority for NMC (8.86 CAAS, 2018), but rates NMC's performance in this area lower (8.21 CAAS, 2018.) NMC will increase performance rating by 8% by Spring 2024. (*Leading indicator:* Workforce offerings and associated enrollment)

Objective 3: Providing personal enrichment has become more important for the community with scores increasing from 7.11 to 7.80 over the last three CAAS surveys. NMC will align lifelong learning opportunities to the community's needs resulting in a less than 17% cancellation rate and be net revenue positive by June 30, 2025.

STRATEGY

NMC's strategic plan, **NMC NEXT**, calls for Extended Education & Training to be financially sustainable by July 1, 2025.

Our new tiered approach includes the addition of Tier 3 events — upscaled, customized learning experiences — that help offset the cost of more affordable Tier 1 programs. This approach ensures that a broader audience of students are engaging with the college.

WHERE WE WERE Before 2020:

- Produced high volume of classes
- Financial return not calculated
- Product cannibalism
- High cancellation rate
- Didn't charge enough
- Lost money

The more classes we produced, the more our losses grew.

To: NMC Board of Trustees

From: Nick Nissley, President

Subject: December Mid-Month Update

Date: Thursday, December 12, 2024

Dear Board of Trustees,

Since our November Board meeting the following are key updates.

Aviation Expansion Project

As you know, we have shaped a \$14 million fundraising campaign to pay for the Aviation expansion project through: government support (\$3.75 million from the State, and \$550,000 from federal support), bonding (\$11 million), and private philanthropy (the NMC Foundation committing to raise \$1 million). This past month we received two anonymous gifts – one of \$150,000 and the other of \$100,000. With the private philanthropy goal for the campaign set at \$1 million, these two new gifts bring the Foundation near the 40 percent mark, with \$390,000 in philanthropic gifts so far.

The Freshwater Research and Innovation Center

Building upon the success of last year's piloting of the AquaHacking Challenge, Jason Slade is leading an effort to bring back the technology-based innovation challenge focused on the issues facing the Great Lakes and associated freshwater ecosystems. Thanks to NOAA/the Great Lakes Resilience Accelerator, NMC has earned a sub-award through gener8tor, resulting in \$70,000 (annually, for four years). This will allow us to launch the program in January, with final pitches occurring in October 2025, at the OCEANS 25 Conference in Chicago.

Acquisition of the Tow Vessel Robinson Bay

Last weekend, our newly acquired tug, Robinson Bay, left Massena, NY after ownership was ceremoniously transferred to GLMA. Our GLMA team got underway to Cleveland where the Robinson Bay will spend the winter in shipyard maintenance, for removal of the upper pilot house and other work. Next spring, the Robinson Bay will travel to her new home in Traverse City, to allow our GLMA cadets to learn towing, ship handling, and engineering processes onboard this legendary vessel.

Foundation Highlights

As noted above, this past month we received two anonymous gifts towards the Aviation Campaign – one of \$150,000 and the other of \$100,000, bringing the Foundation near the 40 percent mark of the \$1 million goal, with \$390,000 in philanthropic gifts so far. In addition, the Foundation's Finance and Audit Committee, this past month, recommended increasing the Foundation's endowment spending/contribution to NMC from 4.25% to 4.50%, resulting in an annual increase to NMC of \$60,000. The unanimous vote continues to signal the Foundation's strong support for the College's needs.

Brand Assessment and Strategy Development

PRMC is wrapping up this first of its kind branding project at NMC this month. The team is finalizing new comprehensive brand guidelines and undergoing a trademark review of the materials with legal counsel. The team will then begin implementation planning and incorporation into the next strategic plan to ensure the college fully embraces and lives into the refreshed NMC brand identity. The year-long, research driven initiative was funded by a Lumina Foundation grant.

Leadership Development at NMC

Thanks to the leadership of Hollie DeWalt (AVP HR) we are planning a New Leaders Learning Community (NLLC) to kick off at the start of the new year. We have done this in the past when we have had a number of new hires entering supervising/managing roles at NMC, to help support them in their development as leaders. Lori Hodek (Talent Development Coordinator) will coordinate the NLLC. Together, they will cover HR policies and practices, discuss NMC culture, answer questions, and help remove barriers for new supervisors. Our intention is that the participants form a support network with their fellow employees, and grow together as college leaders.

MPSERS Retirement Rate Reduction

In October I shared that Governor Whitmer signed House Bill 5803 as Public Act 127 of 2024. This bill provides permanent MPSERS relief for Michigan's community colleges and the K-12 system, lowering the employer contribution from about 21% to 15%. This 5% reduction will save NMC approximately \$850,000 annually. There's more good news. We have already received an electronic transfer from the state. Due to language in the FY 25 budget, community colleges are receiving the initial reimbursement this year!

Reconnect Age Expansion

This past month, the Senate Appropriations Committee passed Senate Bills 406 and 407, which would make the Michigan Reconnect age expansion to include adults 21-24 permanent through 2032. And, a couple of weeks ago the bills passed the Senate with bipartisan support 29-7. The bills have been transmitted to the House and are awaiting referral to a committee for further consideration. We remain optimistic that this age expansion will occur. The upside for NMC is obvious, with more students qualifying for financial support.

Serving on Senator Stabenow's Service Academy Interview Team

For the fourth year, I have had the honor of serving on Senator Stabenow's Service Academy Interview Team. It always occurs on a Saturday in November. It's so refreshing to meet these candidates, highschool seniors who are truly stand-outs. They have such focus, determination, and desire to serve their country. It's a privilege to meet them and share in their dreams of entering a US military academy; but even more so, to hear their stories and desire to make a difference.

Points of Pride

While there's always many things to be proud about, given accomplishments on campus, the following are highlights:

- At last month's Board of Trustees meeting you heard from faculty member, Cathy Warner who shared about her volunteerism with the **Mobile Food Pantry**. Within days the *Ticker* ran an article on the food pantry and Cathy's work. That article prompted an anonymous donor to step up with a donation to cover the pantry's operating costs for this next year.
- Extended Education & Training has specialized in serving lifelong longers ages 55+ for over four decades. In the last year, our Extended Education team has applied an innovative mindset to our offerings and developed unique learning opportunities, which include International Tours. This November, Extended Education successfully carried out a third international tour, this one to Greece (Italy November 2023, Iceland May 2024). With 18 participants, two guides, Dr. Christa Abdul-Karim (Extended Education Program Manager), and Brian Lillie (Chateau Chantal), this wine, food and cultural tour proved to be an engaging learning opportunity for our community. The median age of Extended Education International Tour registrants is 68. The average cost of an International Tour with Extended Education is \$7,300.00 per person.
- The International Affairs Forum raised \$18,325 from 22 donors on Dec. 2nd Giving Tuesday; total includes \$10,000 matching funds from a longtime supporter of IAF's student engagement efforts. The successful campaign was a result of expert execution by Katharine Marvin, Megan Bylsma, and the NMC Foundation team, in coordination with Alex Tank at IAF and ongoing efforts by the IAF Advisory Board Development Committee, led by David Summers. These results represent a 58% increase from FY24, IAF's initial Giving Tuesday campaign (\$11,576 from 27 donors).

Additionally, IAF has met and exceeded its FY25 MOU goal of 300 memberships. IAF is now supported by 302 memberships from within the regional community and beyond, including California, Florida, New York, Ohio, and Virginia, among others. These membership efforts have benefited from the dedication of the IAF Advisory Board Membership Committee, led by Linda and Ed Ketterer. 302 memberships for FY25 YTD represents a 14% increase from 265 memberships in FY24.

Trends in Higher Education Articles

As promised, I'm sharing relevant articles (that I and President's Council have been reading) that speak to trends, risks, challenges, and opportunities in community colleges, to help keep us informed and to invite conversation about how NMC is addressing such issues. This month, I'm sharing:

Re: State/Federal Legislative Update

State

Lame Duck

There are only five legislative session days scheduled between now and the end of the year. Democrats who control both the House and the Senate are scrambling to advance priorities before they lose the speakers gavel in the House at the end of this session. However, due to illness and protest, several Democrats have not been on the floor, reducing Democrat's slim margin to pass bills with only their own caucus from 56 to 54, one vote less than what is needed to advance legislation on a party line vote. As a result, House and Senate Committees have seen the bulk of the action with over 150 bills up for a hearing this last week alone. As a result, it is unclear what will get done in lame duck due to a lack of consensus on priorities and the ability of Democrats to muster enough votes to pass bills.

Supplemental Spending Bill

While there continue to be some rumblings that a supplemental spending bill will be assembled before the end of the year, we have not seen any Appropriations Committee actions so far. In addition, there is a general consensus that the focus of the bill will be on large macro level economic initiatives including a chip manufacturing plant and potentially funds to demolish the Renaissance Center in Detroit. What is less clear is other member specific priorities will be included and/or Capital Outlay authorizations.

Michigan Reconnect Bills

Following Senate Appropriations Committee approval of SB 406 and SB 407, the full Senate passed his bill package which will make the Michigan Reconnect age expansion to include adults 21-24 permanent through 2032. The legislation now heads to the House for consideration. Senator Damoose supported this legislation in the Senate.

Open Meetings Act Legislation

Following passage by the Senate Committee on Local Government, the full Senate passed SB 1023 which would expand the grounds for going into closed session when a public body consults with its attorney. This would include but is not limited to pending or notice of potential litigation which the public body or a member of the public body is a party or a potential party, and the attorney's oral or written legal onion. This legislation now goes to the House Government Operations Committee for consideration. The Senate also sent SB 870 to the House with support from all democrats and two republicans. SB 870 would allow persons on public boards with disabilities to participate remotely.

Public Employee Health Care Insurance Law

Legislation introduced in the House and Senate seek to repeal or amend PA 152 of 2011, the Publicly Funded Health Insurance Contribution Act, which sets maximum amounts public employers may pay towards employee health insurance. While the approach differs in each chamber, there is clearly a desire amongst some democrats to amend PA 152 before the end of the year.

- <u>HB 6136</u>: Repeals PA 152, meaning there would be no cap on public employer expenditures for employee medical benefit plans.
- <u>SB 1129</u>: Amends PA 152 to gradually, annually increase the employer cap from 80% in 2024 to 81.5% on Jan. 1, 2029 and beyond.
- <u>SB 1130</u>: Amends PA 152 to increase the "hard cap" and schedule increases based on the medical component of CPI for preceding 12 months.

Federal

119th Congress

With Republicans having control of both chambers of Congress and the Presidency next session, they will look to advance much of their legislative agenda through the budget reconciliation process (filibuster proof) and will pursue an aggressive timeline to deliver results in the first 100 days.

In the House, the Education and Workforce Committee will have a new Chair with current Chair, Dr. Virginia Foxx being term limited in that role. Reps. Burgess Owens (R-UT) and Tim Walberg (R-MI) are vying for the chairmanship. Rep. Wallberg has served on the committee for his entire 8 term run in Congress. He is a strong supporter of Workforce Pell.

In the Senate, the Committee on Health, Education, Labor and Pensions (HELP) will be led by Sen. Bill Cassidy (R-LA). Cassidy is a strong supporter of community college issues.

As Republicans look to advance their agenda, there will be pressure to offset any tax cuts or spending with savings and compliance with spending caps handed down by leadership.

FY25 Budget

With government funding for the current fiscal year expiring on December 20th, Congress is likely to pursue another short-term Continuing Resolution (CR) through March 2025. This may result in reductions from current FY24 spending levels and as a full year spending bill is debated next year, Congress will look to reduce discretionary, non-defense spending. This includes implementing new statutory caps on annual appropriations as part of the upcoming debt ceiling debate.

Secretary of Education

President elect Trump has announced his selection for Secretary of Education, Linda McMahon. Ms. McMahon is perhaps best known for her cofounding of World Wrestling Entertainment (WWE) before entering the political arena, running for a U.S. Senate seat and then leading the Small Business Administration in the first Trump administration. Her most relevant experience with education issues comes from her year on the Connecticut Board of Education in 2009 as well as a years-long tenure on the board of trustees for Sacred Heart University (CT). Relevant to community colleges, Ms. McMahon has recently authored an opinion piece expressing support for the Bipartisan Workforce Pell Act.

Workforce Innovation and Opportunity Act (WIOA)

In late November, leaders of the Health, Education, Labor, and Pensions (HELP) Committee in the Senate and the Education and Workforce Committee in the House of Representatives unveiled a bipartisan, bicameral agreement to reauthorize the Workforce Innovation & Opportunity Act (WIOA). The challenge now will be

finding time on the floor for consideration of the bill in both chambers before the end of Congress. The more likely approach will be finding a legislative vehicle like the National Defense Authorization Act (NDAA) or a Continuing Resolution (CR) extension to attach the legislation in order for it to become law before this Congress adjourns.

The revised "A Stronger Workforce for America Act (ASWAA)" includes one of ACCT's top legislative priorities which is the codification of the Strengthening Community College Training Grant (SCCTG). SCCTG has been in existence for about five years, and it was established through the FY 2020 funding legislation. However, it was never codified into law and was subject to the discretion of appropriators for continued funding. In the new proposal the program is renamed as the Strengthening Community College Workforce Development Grant.

PASSAGES

UNHCR Refugee Simulation Game

International Services and Service Learning, International Affairs Forum, Multicultural Club, Student Life, Special Assistant to the President for DEIB

A unique simulation game developed by the United Nations High Commission on Refugees confronting the plight of refugees.

Friday, September 27, 2024 9:00 a.m. - 1:00 p.m. The game allowed 30 students to:

- Discover the concrete problems which confront refugees
- Feel the psychological anguish caused by separation and flight
- See what forces people into refugee situations and the train of events that brings them to refugee camps and beyond
- Think about possible solutions to refugee problems, particularly with regards to integration within the country of asylum and repatriation to the country of origin
- Adopt a more welcoming attitude towards refugees in their own communities and become
 motivated to undertake actions on behalf of refugee families

It was decided to offer the Passages simulation in September due to it being a topic of interest in the upcoming election and also in preparation for the October IAF presentation on

Global Migration and the Southern Border

Alan Bersin

Former Assistant Secretary in the Office of Policy at the U.S. Department of Homeland Security 2012-17

Former Commissioner of U.S. Customs and Border Protection 2010-11

Andrew Selee, Ph.D.

President, Migration Policy Institute

Former founder & executive VP of the Mexico Institute at the Wilson Center

Scenario 2: Escape and Separation

Students were blindfolded, scattered around an open area in the woods, and went through the experience of escape and separation from their home, friends and perhaps their family by playing a game that simulates a situation in which people are fleeing a bombardment.

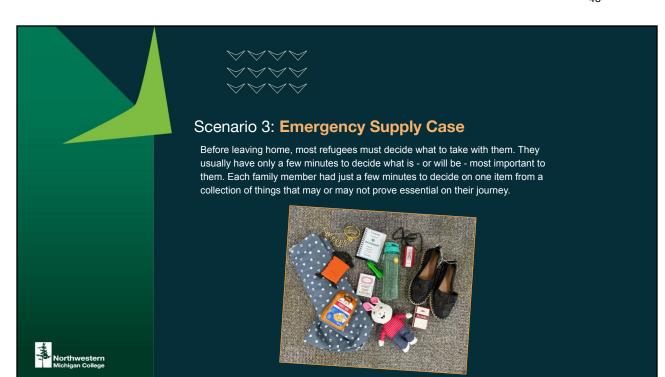

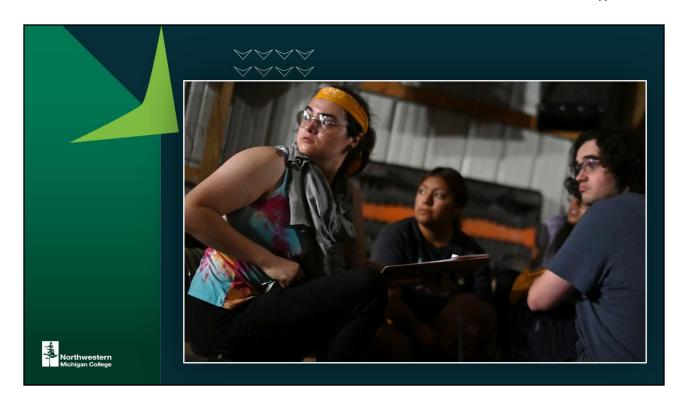

"I remember trying to think how a child would react to being lost in the dark, with all the chaos of a community trying to find one another."

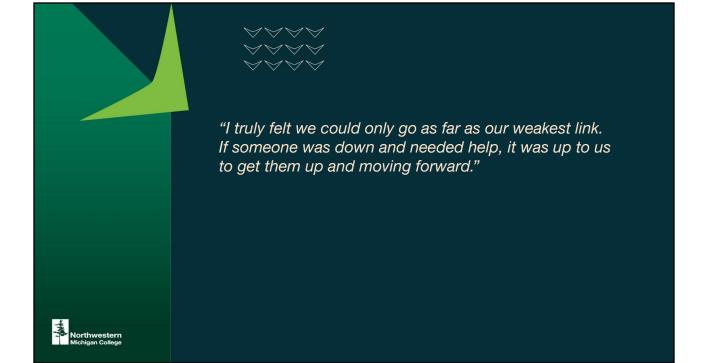

Examples of the Event Cards

Scenario 6: Border Crossing

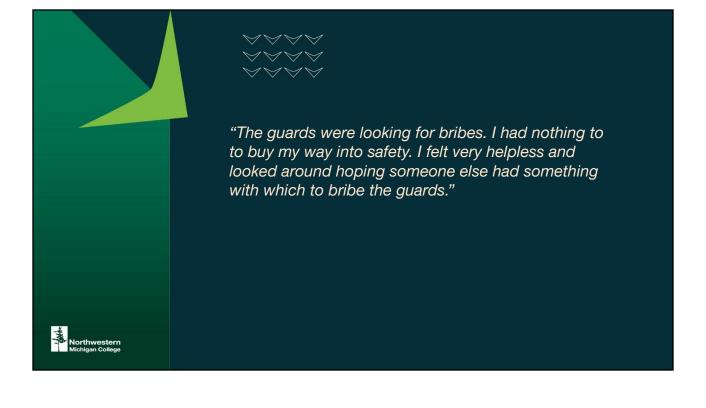

course, that they are literate).

Scenario 7: Setting Up Camp

After crossing the border, many refugees must settle down and live in camps. Humanitarian aid helps provide water, food, shelter and first aid. But life in these camps is harsh. There is often a lot of frustration felt by refugees who find themselves in a camp situation.

Scenario 8: The Family Spokesperson

Refugees must go through a series of interviews with the authorities of the host country. These can prove to be very difficult tests. They must explain why they are asking for asylum, often without knowing what the criteria for acceptance are.

Refugees must also think about what kind of attitude to adopt in order to convince the authorities to let them into the country, even temporarily.

Scenario 9: Meeting the Local Population

For asylum-seekers who are granted refugee status and therefore have the right to stay in their host country, there are still more challenges to overcome. They often do not know the local language and as a result have trouble communicating and integrating with the local population.

Scenario 10: Repatriation

There are three lasting solutions to the plight of refugees and it is part of the UNHCR mandate to work towards the most suitable of the three: voluntary repatriation to the refugees' home country; integration into the first country of asylum; or resettlement of refugees in a third country. The vast majority of refugees want to go back home one day, even when the living conditions that await them are very difficult and may include a scarcity of resources, dismantled infrastructure, economic hardship, and sometimes even land mines which might still be scattered around the countryside.

Debrief

During the final portion of the game, participants were joined by NMC international students from Nicaragua, Syria, and Afghanistan who shared their own deeply moving experiences as refugees

"The moment that really solidified everything was afterwards when four students who had experienced refugee displacement shared their experience with us. It was a very grounding moment. The heartfelt losses that were shared put into perspective that the reality of this experience was about people's lives. It has, and was, affecting the lives of fellow students as well others in our community."

Subject: November 2024 Monthly Report

Firstly, thank you to you and the Board of Trustees for your enthusiastic support for the transformation of PRMC into a strategic, integrated enrollment marketing communications team. Over the past three years, this effort has required significant focus and collaboration, yielding remarkable results that reflect the priorities you've set for the college. It's exciting to see the momentum your vision has created. We remain focused on fulfilling the priorities you've established as we continue building on this momentum.

For the month of November, PRMC saw positive results across all media. Paid digital campaigns were up YOY. Highlights include increased performance for the adult, traditional, GLCI and GLWSI campaigns. Earned media performance was up MOM and YOY. Highlights include the new GLMA tugboat, homeless awareness walk and Veteran's Day ceremony. NMC Now gained new and increased open rates highlighting the new community report and apprenticeships.. The printed new community report was sent to all Grand Traverse County individual and business taxpayers, as well as other key constituents. Reviews have been overwhelmingly positive. We will continue to share the content across all media. Shared media was up MOM and YOY. We do see some engagement impact due to a shift in paid strategy. November's highest performing posts include the food pantry, Thanks for giving, Mariner's memorial and aviation. Finally, we are nearing the end of the brand assessment and strategy development with the completion of the brand guidelines and trademark review. We will next begin implementation planning and incorporation into the new strategic plan. NMC Public Relations, Marketing and Communication key performance indicators for November 2024 include:

 - (e) The College determines from time to time that, for any reason, including but not limited to a work force reduction at the Project Site, sufficient realized or projected revenue from New Jobs Credit from Withholding will not be generated by the Project to enable the College to satisfy the Obligations.

- (f) Any representation or warranty made by the Employer herein or any statement in any report, certificate, financial statement, or other instrument furnished in connection with this Agreement or with the sale of the Bonds shall at any time prove to have been false or misleading in any material respect when made or given.

In addition, the College may take whatever other action at law or in equity may appear necessary or desirable to collect the payments and other amounts then due and thereafter to become due, or to enforce performance and observance of any other obligation or agreement of the Employer under this Agreement. - Section 8.3 Immediately upon the occurrence of an event of default, there shall be due from the Employer to the College such amount as will enable the College to presently satisfy the unpaid amount of the Obligations, including Debt Service on the Bonds. No demand or notice of the amount due immediately upon the occurrence of an event of default is or shall be required to fix the liability of Employer or the amount due from Employer. The amount due hereunder from the Employer shall be a debt of Employer to the College and the College may set off against the amount due from the Employer any debt or debts of the College to Employer.
- Section 8.4 No remedy conferred upon or reserved to the College by this Agreement is intended to be exclusive of any other available remedy or remedies, but each and every such remedy shall be cumulative and shall be in addition to every other remedy now or hereafter existing at law, in equity or by statute. No delay or omission to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed to be a waiver thereof, but any such right and power may be exercised from time to time and as often as may be deemed expedient. In order to entitle the College to exercise any remedy reserved to it in this Article, it shall not be necessary to give any notice, other than such notice as may be expressly required herein, nor shall it be necessary to make any declaration of an event of default other than such declaration as may be expressly required herein.
- Section 8.5 In the event any agreement contained in this Agreement should be breached by either party and thereafter waived by the other party, such waiver shall be limited to the particular breach so waived and shall not be deemed to be a waiver of any other breach hereunder.

ALEX TANK, DIRECTOR, INTERNATIONAL AFFAIRS FORUM

SUBJECT: INTERNATIONAL AFFAIRS FORUM (IAF) 2% GRANT REQUEST

ATTACHMENT: IAF 2% APPLICATION AND EVENT BUDGET ANALYSIS

Background:

Twice a year the Grand Traverse Band of Ottawa and Chippewa Indians accepts grant applications from local government entities for funding from 2% of their gaming revenue. The grant request requires the approval of the institution's governing board, which for NMC is the Board of Trustees.

Request:

This is a request for the Board of Trustees to approve the submission of this grant application at the January 2025 meeting. IAF is requesting \$10,000 for freshwater and indigenous programming. The programming would tap into local experts and provide an IAF connection to the Grand Traverse Band of Ottawa and Chippewa Indians, expanding reach and align with program initiatives focused on the environment. This application has already been approved by IAF's Advisory Board.

Thank you for your consideration

7. Brief Description (purpose of funding); include statement of need:

Last year, we asked for and received support from the GTB to emphasize and educate our community about the importance of local and global freshwater resources, as well as our first ever program on indigenous sovereignty. With GTB support, we were able to provide four educational programs to the community: three presentations on water and one presentation on indigenous sovereignty driven by Professor Matthew Fletcher and moderated by Mark Wilson.

We want to expand these programs to focus on land and water stewardship to include indigenous voices and perspectives.

We seek to increase our coordination and consultation with the GTB as we develop programming for the future. Our target audience includes high school and college students, their educators, IAF supporting members, tribal citizens, and members of our greater community. The bulk of our IAF budget comes from IAF members. Our goal is to make IAF fully self-supporting as we expand and extend our audience. IAF is a formal program of NMC. With support from the GTB, we now have a hybrid format. The programs are presented in person at the Milliken Auditorium on the NMC campus. At the same time we provide a simultaneous viewing experience accessible throughout the globe. We want to increase the impact of our message not just locally but anywhere in the world. The support from the GTB is appreciated and helps us accomplish that goal. A copy of last year's programs is attached.

(a)	Program formula: (1) \$5,000, up to \$10,000 per school district + ($$1,000$, up to $$1,500$ x # of member students) = allocation.
