

# MARINE TECHNOLOGY CAMP

## COURSE DESCRIPTION

This week-long program is a hands-on experience using marine technologies designed specifically for college students. Students will log time on research vessels, collect data using ROVs, sonar equipment, sensors, and buoys while learning multiple applications of these technologies. The camp is designed to offer a chance to not only learn about and use various technologies, but to deploy the equipment and gather data applied to various investigations.

## TOTAL HOURS

40

## MAX PARTICIPANTS

16

## COST PER STUDENT

\$1,650

## LOCATION

Traverse City, MI
