Frustrated of dealing with the same problems in your workplace over and over again? Have good people working in broken systems? Want to engage in continuous improvement but don't have the time? Learn some basic tools to start implementing a continuous improvement system and process.

Deliverables

- Describe the Plan-Do-Check-Adjust approach to continuous improvement
- Identify strategies for surfacing and capturing problems
- Identify the six steps of continuous improvement
- Practice using tools to keep focus on continuous improvement and maintain momentum: visual management tools, metrics, and stand-up huddles
