Build your organization’s internal lean capacity as a Lean Champion and learn how to facilitate continuous improvement projects in your workplace. This six-month training will include tools for facilitating change, seeing waste in current processes, building more effective teams, increasing productivity while reducing stress, and improving the quality of services or products delivered to your customer.

Deliverables
- Facilitated Kaizen at your location
- Sustain continuous improvement
- Lean manufacturing simulation/project planning
- Facilitator and KATA skills
- Problem solving
- Current/future state value stream mapping
- 5S workplace organization
- Kanban pull system
- Standard work and poke-yoke
- Cellular flow
- SMED
- Total productive maintenance
